Camp

I really enjoyed my time at Cedar Springs camp in Lake Stevens. I had a memorable time and I learned more about one another. I learned so much about our environment and everything else around us. I had so much fun during camp and got closer to all of my friends. Camp is what brought us all together, I would love to go back!

One memorable time that I had at camp was the folk dancing. One reason that I liked the folk dancing so much is because that was the time when all the cabin groups came together and we got to spend time with friends dancing and having a great time! We also got to meet different people when we were dancing and got to share the joy of dancing with them. I also learned all the songs and the dances that go with the songs. Folk dancing was an experience I will always remember.

Another memory that I loved was our learning groups. One reason why I liked our learning groups was because we got to spend time with other camp counselors that weren't in our cabin. We got to do rock climbing and fun stuff like that. We learned a lot about our learning counselors and had lots of fun with them. They are the ones that made camp so much fun!

The last memorable experience during camp that I had was the campfire that we had. It was a memorable experience because I got to sit by people that I normally don't talk to or sit by and I learned new songs that I can teach to my family at home. Another reason that I enjoyed the campfire so much is because I felt that we were all one big happy family around the fire. Although it was a little chilly it felt so cozy to be with everyone singing songs and watching plays. The campfire that night was the most memorable experience I will never forget.

All of these memories I will treasure in my heart forever. At camp I had an unforgettable experience. Camp got me to learn what our environment is all about. I had so much fun during camp! Even though camp is over, I will always go back to all those wonderful memories that I have about my 6<sup>th</sup> grade camp!
